### Profile

I specialize in front-end development, particularly with React.js. I have experience in creating modern, responsive, and user-friendly web applications. With a strong understanding of web technologies such as HTML, CSS, and JavaScript — along with frameworks like Tailwind CSS and Bootstrap — I am passionate about building dynamic user interfaces and delivering seamless user experiences.

### Education

student, Faculty of Agriculture

2022-10 – present  
Menoufia, Egypt

### Professional Experience

Front-End Developer (Trainee / Freelance Projects), Route

Jan 2024 – May 2024

- Worked on real-world projects during React.js Front-end Diploma
- Collaborated using GitHub and improved UI/UX for multiple components
- Delivered SPA features using React Router and REST APIs
- Technologies: React, JavaScript, Tailwind, Bootstrap, Git

Remote

### Skills

- |                |               |
|----------------|---------------|
| • HTML         | • CSS         |
| • JavaScript   | • Bootstrap   |
| • Tailwind CSS | • JQuery      |
| • Git & GitHub | • Sass        |
| • Redux        | • Type Script |
| • React        | • Context     |

### Projects

#### My Portfolio

React.js - tailwindcss - Framer Motion - Context - Email.js
